**Withdrawal
Request
Amount**

Please note, the plan imposes a minimum hardship withdrawal amount of \$500.00.

If the amount available for a hardship is less than the plan minimum at time of processing, your hardship will be processed for the amount of your documented need. This need must meet or exceed your available hardship amount.

The disbursement amount will be taken from your account according to the hierarchy determined by the Administrator. If the amount requested exceeds your maximum hardship withdrawal amount, you will be paid the maximum amount available.

Amount of: \$_____ (required-must be completed)

If you do not check the box below, the "gross up" will not occur. You may include in the hardship disbursement additional amounts necessary to pay anticipated federal or state income tax and penalties. If you would like your gross payment to include taxes and fees reasonably anticipated to result from this hardship disbursement (this is called a "gross up"), check the following box.

I would like to increase the amount of my hardship withdrawal request to cover any federal and state income taxes, penalties, and any applicable fees that may reasonably be anticipated as a result of this disbursement.

Note: Your election for Federal and State Income Tax in the following sections will be used as the amount of reasonably anticipated taxes and fees in the "gross up" calculation.

Election for Withholding of Federal Income Tax

Federal tax laws require us to withhold income taxes from the taxable portion of a qualified retirement plan distribution. Some states also require withholding from the taxable portion of your distribution if federal income tax is withheld. Hardship disbursements are subject to 10% federal income tax **withholding**, unless you elect otherwise. You can elect to have no federal income taxes withheld by checking the box below. **If you elect out of withholding, you are still responsible for payment of any taxes due, and you may incur penalties if your withholding and/or estimated tax payments are not sufficient.** If you do not check one of the options below, 10% federal income tax withholding will be automatically deducted from your payment.

- 1. I elect **to have** federal income tax withheld at 10% from the taxable amount of my distribution.
- 2. I elect **not** to have federal income tax withheld from my distribution.
- 3. I elect **to have** federal income tax withheld from the taxable amount of my distribution at either the following percentage or dollar amount. The federal withholding calculated from your election below must be at least 10% of the taxable amount of my distribution amount (allowable election can be 10% - 35%).

_____ % or \$ _____ .00

It is our understanding a hardship disbursement is not eligible to be rolled over. All or part of the taxable portion of your hardship disbursement may be subject to an *additional* 10% federal income tax **penalty** on early distributions, unless you qualify for an exception. Since neither Prudential nor any of its employees, agents or representatives can give legal or tax advice, or financial advice on behalf of the Plan, you are urged to consult your own personal legal, tax and/or financial advisor with any questions on allowances, deductions, or tax credits that may apply to your particular situation before you take any action.

Express Mail
(check box if applicable)

- I wish to have my disbursement check sent by express mail. Therefore, please deduct \$25.00 per check from my account prior to the distribution. **Please Note:** Express mail is *not* available for delivery to post office boxes.

Election For Withholding of State Income Taxes
((For Single Sum Payments and Rollovers of non-Roth money to a Roth IRA))

NC State Income Tax withholding generally does not apply to payees of a Bailey vested account.

- A. **Mandatory State Withholding:** If you reside in a state where state income tax withholding is mandatory **AR, CA*, DC (mandatory for total single sum distributions only), DE, IA, KS, MA, MD (mandatory for eligible rollover distributions only, subject to 20% mandatory federal withholding), CT, ME, MI (see below), NC, NE, OK*, OR*, VA or VT*** applicable withholding will be deducted automatically, unless an election out is applicable (see below). Note: Some states require withholding if federal income tax is withheld from the distribution.

If you are a resident of **IA**, have federal income taxes withheld, and receive one or more distributions totaling more than \$6,000 in the calendar year, **IA** income taxes are required to be deducted for the amount over \$6,000.

- My resident state is **AR, DE, KS, ME, NC, NE, or VA** (for **NE** and **VA**, election out is allowed for payments from IRA's only) and I do not want state income tax withholding deducted from my distribution. (An election out of **AR, DE, KS, ME, NC, or VA** state tax is not allowed for eligible rollover distributions, subject to 20% mandatory federal withholding.) **Important note to Maine (ME) residents. If you elect out of ME withholding, you must either have elected out of federal withholding, or have no Maine State tax liability in the prior or current years.**
- *My resident state is one of the following: **CA, OK, OR, **VT** and withholding is required if federal income tax is withheld, unless I elect out of state withholding. By checking this box I am electing out of state withholding. **An election out is not allowed for eligible rollover distributions, subject to 20% mandatory federal withholding.
- My resident state is **CT** and Prudential will withhold 6.99% on your taxable distribution. Please note that if you are not requesting a distribution of your entire account balance and if Form CT-W4P, *Withholding Certificate for Pension or Annuity Payments*, applies to you, please return Form CT-W4P as part of this distribution form. Form CT-W4P is available on the Department of Revenue Services (DRS) website, at www.ct.gov/DRS.

My resident state is **MI** and withholding of 4.25% is required, unless my payments are not taxable and I opt out.

- My resident state is **MI** and I would like to opt out of **MI** withholding. Note: Opting out may result in a balance due on your **MI 1040** as well as penalty and/or interest.
- My resident state is **MI** and if my payments are taxable, I wish to have **MI** state withholding based on the number of exceptions selected. I have entered the number of exemptions below:
_____ Enter the number of personal exemptions allowed on your Michigan Income Tax Return (MI-1040). The total number of exemptions you claim may not exceed the number of exemptions you are entitled to claim when you file your **MI-1040**. Withholding will be computed at the percentage determined by the state after subtracting your personal exemption allowances.
- My resident state is **MI** and I am requesting _____% additional **MI** state tax withheld from my payment. This amount must be a whole percentage.

- B. **Voluntary State Withholding:** Please check the appropriate box below. If state income tax withholding is not mandatory in your state, you may be allowed to request state tax withholding. If your state of residence is not listed, or if you choose a method of withholding that is not offered for your state, we cannot withhold state income tax.

- I reside in one of the following voluntary withholding states: **AL, CO, DC (voluntary for partial and systematic distributions), GA, ID, IA (voluntary if no federal tax withheld) IL, IN, KY, LA, MD (non-eligible rollover distributions only), MA (voluntary if no federal income tax withheld), MN, MO, MS (voluntary except for early distributions), MT, ND, NE, NJ, NM, NY, OH, PA, RI, SC, UT, VA, WI, WV (NE and VA state withholding is voluntary for payments from IRA's only)** and would like state income tax withheld. (Specify a percentage or dollar amount to be withheld.)
_____ % or \$ _____

- I reside in one of the voluntary withholding states listed above and I do not want state income tax withholding deducted from my distribution.

- C. **No State Withholding:** Some states do not have state income tax withholding.

- My resident state is one of the following: **AK, FL, HI, NV, NH, SD, TN, TX, WA, WY** and there is no state income tax withholding.

Important Withdrawal Information

Hardship Withdrawals and other Plan Withdrawal Options

If your plan allows for other in-service withdrawals (e.g. age 59 1/2, after-tax withdrawal, rollover withdrawals, etc.), these must be used before a hardship withdrawal can be made. You may not request a withdrawal amount in excess of the need detailed in your hardship documentation enclosed.

Federal and State Tax Withholding

The withdrawals you receive from the plan are subject to Federal Income Tax withholding unless you elect not to have withholding apply. Withholding will only apply to the portion of your distribution or withdrawal that is included in your income subject to Federal Income Tax. If you elect not to have withholding apply to your withdrawal, or if you do not have enough Federal Income Tax withheld from your withdrawal, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rule if your withholding and estimated tax payments are not sufficient.

Note that a voluntary withholding election cannot be made involving accounts for which a name and/or taxpayer identification number (TIN) is incorrect or missing. See IRS Publication 1586 for information about mandatory withholding when a participant's TIN is missing or incorrect.

You may elect not to have withholding apply to your hardship withdrawal or to have a specific percentage withheld. If less than the maximum amount available is requested, your distribution will be increased by the applicable tax withholding unless you elect not to have the distribution "grossed up" by the amount of the withholding tax.

If you are a resident of Arkansas, California, Delaware, Iowa, Kansas, Maine, Maryland, Massachusetts, Mississippi, Nebraska, North Carolina, Oklahoma, Oregon, Vermont, and Virginia, state taxes will automatically be withheld if federal taxes are withheld. This list is subject to change based on changing state tax withholding requirements.

Dependent

The definition of "dependent" is important in the application of the "deemed hardship" withdrawal standards that pertain to 401(k)/403(b) plans. Unless a specific exception applies, a dependent must either be a "qualifying child" or a "qualifying relative". These terms are defined as follows:

Qualifying Child

A qualifying child is a child or descendant of a child of the taxpayer. A child is a son, daughter, stepson, stepdaughter, adopted child or eligible foster child of the taxpayer. A qualifying child also includes a brother, sister, stepbrother or stepsister of the taxpayer or a descendant of any such relative. In addition, the individual must have the same principal place of abode as the participant for more than half of the taxable year, the individual must not have provided over half of his own support for the calendar year, and the individual must not have attained age 19 by the end of the calendar year. An individual who has attained age 19 but is a student who will not be 24 as of the end of the calendar year and otherwise meets the requirements above is also considered a qualifying child. Special rules apply to situations such as divorced parents, disabled individuals, citizens or nationals of other countries, etc. Please see your tax advisor for further details regarding special situations.

Qualifying Relative

A qualifying relative is an individual who is not the participant's "qualifying child", but is the participant's: child, descendant of a child, brother, sister, stepbrother, stepsister, father, mother, ancestor of the father or mother, stepfather, stepmother, niece, nephew, aunt, uncle, son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law. An individual who is not the participant's spouse but who shares the same principal place of abode and is a member of the participant's household may also be considered a qualifying relative. Regardless of the participant's relationship to the individual, the participant must provide over half of the individual's support for the calendar year for that individual to be considered the participant's qualifying relative. There are special rules for situations such as multiple support agreements, divorced or legally separated parents, custodial and non-custodial parents, etc. Please see your tax advisor for further details regarding special situations.

If you are requesting a hardship withdrawal to cover expenses that pertain to the individuals listed below, copies of the following additional documents must also be submitted:

- Your dependent: Your most recent Form 1040 US Income tax return.

Expenses for the Repair of Damage to the Employee's Principal Residence that Qualifies for a Casualty Deduction

Definition: Expenses for the repair of damage to the employee's principal residence that would qualify for the casualty deduction under section 165 (determined without regard to whether the loss exceeds 10% of adjusted gross income).

IMPORTANT: PLEASE READ AND COMPLETE BEFORE SUBMISSION OF REQUEST

Please check the documentation that you have enclosed and be sure to indicate the total amount requested. In the event that the amount requested is more than the amount available in your account for withdrawal, the withdrawal will be limited to the amount available in your account. Please note that when there is a submission of more than one bill, you must circle the *subtotals* from each and provide a summation of the total amount requested.

REQUIRED

Documentation (Please include all required documentation and enclose with Hardship Withdrawal Request Form) **Note:** Funds can only be disbursed for **Unpaid** bills.

- Evidence of casualty (a detailed description of the events that resulted in the casualty). You may submit pictures and/or articles of newspaper clippings as evidence.
- The reason for the loss and any documentation supporting that loss. You must sign/date your letter of explanation.
- The location of the loss (the address of the loss must be the participant's primary residence).
- If your address on file with Prudential does not match the address of your primary residence as listed on the casualty description or invoices, please submit a copy of your current driver's license which shows your primary residence address. If your current driver's license has not yet been updated with your primary residence address, you may also submit a signed, dated, notarized letter stating that the home affected by the casualty is your primary residence.
- Unpaid current (dated within 45 days) invoices and/or contracts, signed by participant and contractor, evidencing the cost of the repair, and which indicates that insurance does not cover the cost of repairs. Please note: We cannot accept an estimate of these charges.
- Copy of any insurance claims from your insurance company as evidence that the damages have/have not been covered by your homeowners insurance.

I am requesting this amount because of damages that were caused to my principal residence due to:

- Fire
- Storm
- Shipwreck
- Other Casualty* This may require further review by plan, legal, etc.
- Theft*

*Describe casualty or theft: _____

A "casualty loss" is defined as a "**sudden, unusual or unexpected**" event resulting in an uninsured loss. Causes of such rapid losses include flood, fire, earthquake, wind damage, water damage, theft, accident, vandalism, hurricane, tornado, riot, shipwreck, snow, rain and ice. To be deductible, a casualty loss **must occur quickly, usually instantly or over a few days**. Slow losses that occur over months or years, such as mold damage, dry rot, moth or termite damage, or normal home maintenance to repair or replace windows, roofs or plumbing generally are not tax-deductible, and therefore do not qualify for a financial hardship.

The participant can only qualify for a hardship withdrawal for this reason when there is a casualty loss to his principal residence that arose from fire, storm, shipwreck, or some other casualty, or from theft. Only the portion of the expense that is not covered by insurance is eligible for this purpose.

The amount of loss is based upon the lesser of the difference between the market value of the property before and after the casualty occurrence or the loss in the basis of the property.

Because of the difficulties of ascertaining the timing of the casualty loss and the dollar amount of the loss, your claim can only be processed through this procedure using the specified documents, and you are strongly urged to discuss with your own tax, accounting or legal advisors the proper measurement of the amount of the casualty deduction loss and the taxable year for which it qualifies as a casualty loss.

SPECIAL TAX NOTICE REGARDING PLAN PAYMENTS

Retain for Your Records

This notice is provided to you by Prudential Financial, Inc., on behalf of the plan administrator ("Plan Administrator").

Right to Defer Distributions from Defined Contribution Plans

You may be eligible to receive a distribution from your employer's retirement plan now. Instead of taking a distribution now, you may elect to defer receiving a distribution until a later date -- typically as late as age 70½. (If your account balance does not exceed \$5,000 (or the amount of your plan's cashout threshold), you may not have a right to defer payment.) If you defer receiving a distribution, the plan investment options available to you thereafter (including related fees) generally will be the same as those available to active employees. However, certain plan features, such as the right to repay or take a loan from the plan, may not be available if you have terminated employment. Please refer to your summary plan description and fund fact sheets for more information about plan investment options, investment related expenses, any plan restrictions or charges applicable to terminated employees, payment options, and any other special rules that may impact your distribution decision. If you elect to receive a distribution that you roll over to another eligible retirement plan such as an IRA, the investment options offered under your current employer's plan (e.g., mutual funds, employer stock) may not be available to you or, if available, are likely to carry higher expenses if transferred to an IRA. If you elect to receive a distribution but do not roll it over to another eligible retirement plan, such action triggers taxation (possibly including a 10% penalty), results in loss of future tax-deferred earnings (if any) and may diminish the funds available to you for retirement purposes. For additional information about plan investment options (and related fees), plan restrictions or charges applicable to terminated employees who defer receiving a distribution, or if you have other questions regarding your right to defer a distribution, and the consequences of failing to defer, please contact Prudential at the number provided on your benefit statement.

For Payments Not From a Designated Roth Account

This notice describes the rollover rules that apply to payments from your employer's plan (the "Plan") that are not from a designated Roth account (a type of account with special tax rules in some employer plans). A different notice is provided for payments from a designated Roth account.

YOUR ROLLOVER OPTIONS

This notice is provided to you because all or part of the payments that you may receive from the Plan may be eligible for rollover to an IRA or an eligible employer plan. This notice is intended to help you decide whether to do such a rollover. If you have additional questions after reading this notice, you can contact your Plan Administrator.

Rules that apply to most payments from a plan are described in the "General Information About Rollovers" section. Special rules that only apply in certain circumstances are described in the "Special Rules and Options" section.

GENERAL INFORMATION ABOUT ROLLOVERS

How can a rollover affect my taxes?

You will be taxed on a payment from the Plan if you do not roll it over. If you are under age 59½ and do not do a rollover, you will also have to pay a 10% additional income tax on early distributions (generally, distributions made before age 59½), unless an exception applies. However, if you do a rollover, you will not have to pay tax until you receive payments later and the 10% additional income tax will not apply if those payments are made after you are age 59½ (or if an exception applies).

What types of retirement accounts and plans may accept my rollover?

You may roll over the payment to either an IRA (an individual retirement account or individual retirement annuity) or an employer plan (a tax-qualified plan, section 403(b) plan, or governmental section 457(b) plan) that will accept the rollover. The rules of the IRA or

employer plan that holds the rollover will determine your investment options, fees, and rights to payment from the IRA or employer plan (for example, no spousal consent rules apply to IRAs and IRAs may not provide loans). Further, the amount rolled over will become subject to the tax rules that apply to the IRA or employer plan.

How do I do a rollover?

There are two ways to do a rollover. You can do either a direct rollover or a 60-day rollover.

If you do a direct rollover, the Plan will make the payment directly to your IRA or an employer plan. You should contact the IRA sponsor or the administrator of the employer plan for information on how to do a direct rollover.

If you do not do a direct rollover, you may still do a rollover by making a deposit into an IRA or eligible employer plan that will accept it. Generally, you will have 60 days after you receive the payment to make the deposit. If you do not do a direct rollover, the Plan is required to withhold 20% of the payment for federal income taxes (up to the amount of cash and property received other than employer stock). This means that, in order to roll over the entire payment in a 60-day rollover, you must use other funds to make up for the 20% withheld. If you do not roll over the entire amount of the payment, the portion not rolled over will be taxed and will be subject to the 10% additional income tax on early distributions if you are under age 59½ (unless an exception applies).

How much may I roll over?

If you wish to do a rollover, you may roll over all or part of the amount eligible for rollover. Any payment from the Plan is eligible for rollover, except:

- Certain payments spread over a period of at least 10 years or over your life or life expectancy (or the lives or joint life expectancy of you and your beneficiary);
- Required minimum distributions after age 70½ (or after death);
- Hardship distributions;
- ESOP dividends;
- Corrective distributions of contributions that exceed tax law limitations;
- Loans treated as deemed distributions (for example, loans in default due to missed payments before your employment ends);
- Cost of life insurance paid by the Plan;
- Payments of certain automatic enrollment contributions requested to be withdrawn within 90 days of the first contribution; and
- Amounts treated as distributed because of a prohibited allocation of S corporation stock under an ESOP (also, there will generally be adverse tax consequences if you roll over a distribution of S corporation stock to an IRA).

The Plan Administrator or the payor can tell you what portion of a payment is eligible for rollover.

If I don't do a rollover, will I have to pay the 10% additional income tax on early distributions?

If you are under age 59½, you will have to pay the 10% additional income tax on early distributions for any payment from the Plan (including amounts withheld for income tax) that you do not roll over, unless one of the exceptions listed below applies. This tax applies to the part of the distribution that you must include in income and is in addition to the regular income tax on the payment not rolled over.

The 10% additional income tax does not apply to the following payments from the Plan:

- Payments made after you separate from service if you will be at least age 55 in the year of the separation;
- Payments that start after you separate from service if paid at least annually in equal or close to equal amounts over your life or life expectancy (or the lives or joint life expectancy of you and your beneficiary);
- Payments from a governmental plan made after you separate from service if you are a qualified public safety employee and you will be at least age 50 in the year of the separation;
- Payments made due to disability;
- Payments after your death;
- Payments of ESOP dividends;
- Corrective distributions of contributions that exceed tax law limitations;

- Cost of life insurance paid by the Plan;
- Payments made directly to the government to satisfy a federal tax levy;
- Payments made under a qualified domestic relations order (QDRO);
- Payments up to the amount of your deductible medical expenses;
- Certain payments made while you are on active duty if you were a member of a reserve component called to duty after September 11, 2001 for more than 179 days;
- Payments of certain automatic enrollment contributions requested to be withdrawn within 90 days of the first contribution;
- Payments for certain distributions relating to certain federally declared disasters; and
- Phased retirement payments made to federal employees.

If I do a rollover to an IRA, will the 10% additional income tax apply to early distributions from the IRA?

If you receive a payment from an IRA when you are under age 59½, you will have to pay the 10% additional income tax on early distributions on the part of the distribution that you must include in income, unless an exception applies. In general, the exceptions to the 10% additional income tax for early distributions from an IRA are the same as the exceptions listed above for early distributions from a plan. However, there are a few differences for payments from an IRA, including:

- The exception for payments made after you separate from service if you will be at least age 55 in the year of the separation (or age 50 for qualified public safety employees) does not apply.
- The exception for qualified domestic relations orders (QDROs) does not apply (although a special rule applies under which, as part of a divorce or separation agreement, a tax-free transfer may be made directly to an IRA of a spouse or former spouse).
- The exception for payments made at least annually in equal or close to equal amounts over a specified period applies without regard to whether you have had a separation from service.
- There are additional exceptions for (1) payments for qualified higher education expenses, (2) payments up to \$10,000 used in a qualified first-time home purchase, and (3) payments for health insurance premiums after you have received unemployment compensation for 12 consecutive weeks (or would have been eligible to receive unemployment compensation but for self-employed status).

Will I owe State income taxes?

This notice does not describe any State or local income tax rules (including withholding rules).

SPECIAL RULES AND OPTIONS

If your payment includes after-tax contributions

After-tax contributions included in a payment are not taxed. If a payment is only part of your benefit, an allocable portion of your after-tax contributions is included in the payment, so you cannot take a payment of only after-tax contributions. However, if you have pre-1987 after-tax contributions maintained in a separate account, a special rule may apply to determine whether the after-tax contributions are included in a payment. In addition, special rules apply when you do a rollover, as described below.

You may roll over to an IRA a payment that includes after-tax contributions through either a direct rollover or a 60-day rollover. You must keep track of the aggregate amount of the after-tax contributions in all of your IRAs (in order to determine your taxable income for later payments from the IRAs). If you do a direct rollover of only a portion of the amount paid from the Plan and at the same time the rest is paid to you, the portion directly rolled over consists first of the amount that would be taxable if not rolled over. For example, assume you are receiving a distribution of \$12,000, of which \$2,000 is after-tax contributions. In this case, if you directly roll over \$10,000 to an IRA that is not a Roth IRA, no amount is taxable because the \$2,000 amount not directly rolled over is treated as being after-tax contributions. If you do a direct rollover of the entire amount paid from the Plan to two or more destinations at the same time, you can choose which destination receives the after-tax contributions.

If you do a 60-day rollover to an IRA of only a portion of the payment made to you, the after-tax contributions are treated as rolled over last. For example, assume you are receiving a distribution of \$12,000, of which \$2,000 is after-tax contributions and no part of the distribution is directly rolled over. In this case, if you roll over \$10,000 to an IRA that

is not a Roth IRA in a 60-day rollover, no amount is taxable because the \$2,000 amount not rolled over is treated as being after-tax contributions.

You may roll over to an employer plan all of a payment that includes after-tax contributions, but only through a direct rollover (and only if the receiving plan separately accounts for after-tax contributions and is not a governmental section 457(b) plan). You can do a 60-day rollover to an employer plan of part of a payment that includes after-tax contributions, but only up to the amount of the payment that would be taxable if not rolled over.

If you miss the 60-day rollover deadline

Generally, the 60-day rollover deadline cannot be extended. However, the IRS has the limited authority to waive the deadline under certain extraordinary circumstances, such as when external events prevented you from completing the rollover by the 60-day rollover deadline. Under certain circumstances, you may claim eligibility for a waiver of the 60-day rollover deadline by making a written self-certification. Otherwise, to apply for a waiver from the IRS, you must file a private letter ruling request with the IRS. Private letter ruling requests require the payment of a nonrefundable user fee. For more information, see IRS Publication 590-A, *Contributions to Individual Retirement Arrangements (IRAs)*.

If your payment includes employer stock that you do not roll over

If you do not do a rollover, you can apply a special rule to payments of employer stock (or other employer securities) that are either attributable to after-tax contributions or paid in a lump sum after separation from service (or after age 59½, disability, or the participant's death). Under the special rule, the net unrealized appreciation on the stock will not be taxed when distributed from the Plan and will be taxed at capital gain rates when you sell the stock. Net unrealized appreciation is generally the increase in the value of employer stock after it was acquired by the Plan. If you do a rollover for a payment that includes employer stock (for example, by selling the stock and rolling over the proceeds within 60 days of the payment), the special rule relating to the distributed employer stock will not apply to any subsequent payments from the IRA or employer plan. The Plan Administrator can tell you the amount of any net unrealized appreciation.

If you have an outstanding loan that is being offset

If you have an outstanding loan from the Plan, your Plan benefit may be offset by the outstanding amount of the loan, typically when your employment ends. The offset amount is treated as a distribution to you at the time of the offset. Generally, you may roll over all or any portion of the offset amount. Any offset amount that is not rolled over will be taxed (including the 10% additional income tax on early distributions, unless an exception applies). You may roll over offset amounts to an IRA or an employer plan (if the terms of the employer plan permit the plan to receive plan loan offset rollovers).

How long you have to complete the rollover depends on what kind of plan loan offset you have. If you have a qualified plan loan offset, you will have until your tax return due date (including extensions) for the tax year during which the offset occurs to complete your rollover. A qualified plan loan offset occurs when a plan loan in good standing is offset because your employer plan terminates, or because you sever from employment. If your plan loan offset occurs for any other reason, then you have 60 days from the date the offset occurs to complete your rollover.

If you were born on or before January 1, 1936

If you were born on or before January 1, 1936 and receive a lump sum distribution that you do not roll over, special rules for calculating the amount of the tax on the payment might apply to you. For more information, see IRS Publication 575, *Pension and Annuity Income*.

If you are an eligible retired public safety officer and your payment is used to pay for health coverage or qualified long-term care insurance

If the Plan is a governmental plan, you retired as a public safety officer, and your retirement was by reason of disability or was after normal retirement age, you can exclude from your taxable income Plan payments paid directly as premiums to an accident or health plan (or a qualified long-term care insurance contract) that your employer maintains for you, your spouse, or your dependents, up to a maximum of \$3,000 annually. For this purpose, a public safety officer is a law

enforcement officer, firefighter, chaplain, or member of a rescue squad or ambulance crew.

If you roll over your payment to a Roth IRA

If you roll over a payment from the Plan to a Roth IRA, a special rule applies under which the amount of the payment rolled over (reduced by any after-tax amounts) will be taxed. However, the 10% additional income tax on early distributions will not apply (unless you take the amount rolled over out of the Roth IRA within 5 years, counting from January 1 of the year of the rollover).

If you roll over the payment to a Roth IRA, later payments from the Roth IRA that are qualified distributions will not be taxed (including earnings after the rollover). A qualified distribution from a Roth IRA is a payment made after you are age 59½ (or after your death or disability, or as a qualified first-time homebuyer distribution of up to \$10,000) and after you have had a Roth IRA for at least 5 years. In applying this 5-year rule, you count from January 1 of the year for which your first contribution was made to a Roth IRA. Payments from the Roth IRA that are not qualified distributions will be taxed to the extent of earnings after the rollover, including the 10% additional income tax on early distributions (unless an exception applies). You do not have to take required minimum distributions from a Roth IRA during your lifetime. For more information, see IRS Publication 590-A, *Contributions to Individual Retirement Arrangements (IRAs)* and IRS Publication 590-B, *Distributions from Individual Retirement Arrangements (IRAs)*.

If you do a rollover to a designated Roth account in the Plan

You cannot roll over a distribution to a designated Roth account in another employer's plan. However, you may be able to roll the distribution over into a designated Roth account in the distributing Plan. If you roll over a payment from the Plan to a designated Roth account in the Plan, the amount of the payment rolled over (reduced by any after-tax amounts directly rolled over) will be taxed. However, the 10% additional tax on early distributions will not apply (unless you take the amount rolled over out of the designated Roth account within the 5-year period that begins on January 1 of the year of the rollover).

If you roll over the payment to a designated Roth account in the Plan, later payments from the designated Roth account that are qualified distributions will not be taxed (including earnings after the rollover). A qualified distribution from a designated Roth account is a payment made both after you are age 59½ (or after your death or disability) and after you have had a designated Roth account. However, if you made a direct rollover to a designated Roth account in the Plan from a designated Roth account in a plan of another employer, the 5-year period begins on January 1 of the year you made the first contribution to the designated Roth account in the Plan or, if earlier, to the designated Roth account in the plan of the other employer. Payments from the designated Roth account that are not qualified distributions will be taxed to the extent of earnings after the rollover, including the 10% additional income tax on early distributions (unless an exception applies).

If you are not a Plan participant

Payments after death of the participant. If you receive a distribution after the participant's death that you do not roll over, the distribution will generally be taxed in the same manner described elsewhere in this notice. However, the 10% additional income tax on early distributions and the special rules for public safety officers do not apply, and the special rule described under the section "If you were born on or before January 1, 1936" applies only if the participant was born on or before January 1, 1936.

If you are a surviving spouse. If you receive a payment from the Plan as the surviving spouse of a deceased participant, you have the same rollover options that the participant would have had, as described elsewhere in this notice. In addition, if you choose to do a rollover to an IRA, you may treat the IRA as your own or as an inherited IRA.

An IRA you treat as your own is treated like any other IRA of yours, so that payments made to you before you are age 59½ will be subject to the 10% additional income tax on early distributions (unless an exception applies) and required minimum distributions from your IRA do not have to start until after you are age 70½.

If you treat the IRA as an inherited IRA, payments from the IRA will not be subject to the 10% additional income tax on early distributions. However, if the participant had started taking required minimum distributions, you will have to receive required minimum distributions from the inherited IRA. If the participant had not started taking required minimum distributions from the Plan, you will not have to start receiving required minimum distributions from the inherited IRA until the year the

participant would have been age 70½.

If you are a surviving beneficiary other than a spouse. If you receive a payment from the Plan because of the participant's death and you are a designated beneficiary other than a surviving spouse, the only rollover option you have is to do a direct rollover to an inherited IRA. Payments from the inherited IRA will not be subject to the 10% additional income tax on early distributions. You will have to receive required minimum distributions from the inherited IRA.

Payments under a qualified domestic relations order. If you are the spouse or former spouse of the participant who receives a payment from the Plan under a qualified domestic relations order (QDRO), you generally have the same options and the same tax treatment that the participant would have (for example, you may roll over the payment to your own IRA or an eligible employer plan that will accept it). However, payments under the QDRO will not be subject to the 10% additional income tax on early distributions.

If you are a nonresident alien

If you are a nonresident alien and you do not do a direct rollover to a U.S. IRA or U.S. employer plan, instead of withholding 20%, the Plan is generally required to withhold 30% of the payment for federal income taxes. If the amount withheld exceeds the amount of tax you owe (as may happen if you do a 60-day rollover), you may request an income tax refund by filing Form 1040NR and attaching your Form 1042-S. See Form W-8BEN for claiming that you are entitled to a reduced rate of withholding under an income tax treaty. For more information, see also IRS Publication 519, *U.S. Tax Guide for Aliens*, and IRS Publication 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*.

Other special rules

If a payment is one in a series of payments for less than 10 years, your choice whether to make a direct rollover will apply to all later payments in the series (unless you make a different choice for later payments).

If your payments for the year are less than \$200 (not including payments from a designated Roth account in the Plan), the Plan is not required to allow you to do a direct rollover and is not required to withhold federal income taxes. However, you may do a 60-day rollover.

Unless you elect otherwise, a mandatory cashout of more than \$1,000 (not including payments from a designated Roth account in the Plan) will be directly rolled over to an IRA chosen by the Plan Administrator or the payor. A mandatory cashout is a payment from a plan to a participant made before age 62 (or normal retirement age, if later) and without consent, where the participant's benefit does not exceed \$5,000, or the amount of your plan's cashout threshold (not including any amounts held under the plan as a result of a prior rollover made to the plan).

You may have special rollover rights if you recently served in the U.S. Armed Forces. For more information on special rollover rights related to the U.S. Armed Forces, see IRS Publication 3, *Armed Forces' Tax Guide*. You also may have special rollover rights if you were affected by a federally declared disaster (or similar event), or if you received a distribution on account of a disaster. For more information on special rollover rights related to disaster relief, see the IRS website at www.irs.gov.

If you expatriate from the U.S., you may be subject to special rules, and should consult with your personal tax advisor to determine if you are required to provide Prudential with IRS Form W-8CE.

SPECIAL TAX NOTICE REGARDING PLAN PAYMENTS

Retain For Your Records

This notice is provided to you by Prudential Financial, Inc., on behalf of the plan administrator ("Plan Administrator").

Right to Defer Distributions from Defined Contribution Plans

You may be eligible to receive a distribution from your employer's retirement plan now. Instead of taking a distribution now, you may elect to defer receiving a distribution until a later date -- typically as late as age 70½. (If your account balance does not exceed \$5,000 (or the amount of your plan's cashout threshold), you may not have a right to defer payment.) If you defer receiving a distribution, the plan investment options available to you thereafter (including related fees) generally will be the same as those available to active employees. However, certain plan features, such as the right to repay or take a loan from the plan, may not be available if you have terminated employment. Please refer to your summary plan description and fund fact sheets for more information about plan investment options, investment related expenses, any plan restrictions or charges applicable to terminated employees, payment options, and any other special rules that may impact your distribution decision. If you elect to receive a distribution that you roll over to another eligible retirement plan such as an IRA, the investment options offered under your current employer's plan (e.g., mutual funds, employer stock) may not be available to you or, if available, are likely to carry higher expenses if transferred to an IRA. If you elect to receive a distribution but do not roll it over to another eligible retirement plan, such action triggers taxation (possibly including a 10% penalty), results in loss of future tax-deferred earnings (if any) and may diminish the funds available to you for retirement purposes. For additional information about plan investment options (and related fees), plan restrictions or charges applicable to terminated employees who defer receiving a distribution, or if you have other questions regarding your right to defer a distribution, and the consequences of failing to defer, please contact Prudential at the number provided on your benefit statement.

For Payments From a Designated Roth Account

This notice describes the rollover rules that apply to payments from your employer's plan (the "Plan") that are from a designated Roth account. A different notice is provided for payments not from a designated Roth account.

YOUR ROLLOVER OPTIONS

This notice is provided to you because all or part of the payments that you may receive from a designated Roth account in the Plan may be eligible for rollover to a Roth IRA or designated Roth account in an eligible employer plan. This notice is intended to help you decide whether to do such a rollover. If you have additional questions after reading this notice, you can contact your Plan Administrator.

Rules that apply to most payments from a designated Roth account are described in the "General Information About Rollovers" section. Special rules that only apply in certain circumstances are described in the "Special Rules and Options" section.

GENERAL INFORMATION ABOUT ROLLOVERS

How can a rollover affect my taxes?

After-tax contributions included in a payment from a designated Roth account are not taxed, but earnings might be taxed. The tax treatment of earnings included in the payment depends on whether the payment is a qualified distribution. If a payment is only part of your designated Roth account, the payment will include an allocable portion of the earnings in your designated Roth account.

If the payment from the Plan is not a qualified distribution and you do not do a rollover to a Roth IRA or a designated Roth account in an employer plan, you will be taxed on the earnings in the payment. If you are under age 59½, a 10% additional income tax on early distributions (generally, distributions made before age 59½) will also apply to the

earnings (unless an exception applies). However, if you do a rollover, you will not have to pay taxes currently on the earnings and you will not have to pay taxes later on payments that are qualified distributions.

If the payment from the Plan is a qualified distribution, you will not be taxed on any part of the payment even if you do not do a rollover. If you do a rollover, you will not be taxed on the amount you roll over and any earnings on the amount you roll over will not be taxed if paid later in a qualified distribution.

A qualified distribution from a designated Roth account in the Plan is a payment made after you are age 59½ (or after your death or disability) and after you have had a designated Roth account in the Plan for at least 5 years. In applying the 5-year rule, you count from January 1 of the year your first contribution was made to the designated Roth account. However, if you did a direct rollover to a designated Roth account in the Plan from a designated Roth account in another employer plan, your participation will count from January 1 of the year your first contribution was made to the designated Roth account in the Plan or, if earlier, to the designated Roth account in the other employer plan.

What types of retirement accounts and plans may accept my rollover?

You may roll over the payment to either a Roth IRA (a Roth individual retirement account or Roth individual retirement annuity) or a designated Roth account in an employer plan (a tax-qualified plan or section 403(b) plan, or governmental section 457(b) plan) that will accept the rollover. The rules of the Roth IRA or employer plan that holds the rollover will determine your investment options, fees, and rights to payment from the Roth IRA or employer plan (for example, no spousal consent rules apply to Roth IRAs and Roth IRAs may not provide loans). Further, the amount rolled over will become subject to the tax rules that apply to the Roth IRA or the designated Roth account in the employer plan. In general, these tax rules are similar to those described elsewhere in this notice, but differences include:

- If you do a rollover to a Roth IRA, all of your Roth IRAs will be considered for purposes of determining whether you have satisfied the 5-year rule (counting from January 1 of the year for which your first contribution was made to any of your Roth IRAs).
- If you do a rollover to a Roth IRA, you will not be required to take a distribution from the Roth IRA during your lifetime and you must keep track of the aggregate amount of the after-tax contributions in all of your Roth IRAs (in order to determine your taxable income for later Roth IRA payments that are not qualified distributions).
- Eligible rollover distributions from a Roth IRA can only be rolled over to another Roth IRA.

How do I do a rollover?

There are two ways to do a rollover. You can either do a direct rollover or a 60-day rollover.

If you do a direct rollover, the Plan will make the payment directly to your Roth IRA or designated Roth account in an employer plan. You should contact the Roth IRA sponsor or the administrator of the employer plan for information on how to do a direct rollover.

If you do not do a direct rollover, you may still do a rollover by making a deposit (generally within 60 days) into a Roth IRA, whether the payment is a qualified or nonqualified distribution. In addition, you can do a rollover by making a deposit within 60 days into a designated Roth account in an employer plan if the payment is a nonqualified distribution and the rollover does not exceed the amount of the earnings in the payment. You cannot do a 60-day rollover to an employer plan of any part of a qualified distribution. If you receive a distribution that is a nonqualified distribution and you do not roll over an amount at least equal to the earnings allocable to the distribution, you will be taxed on the amount of those earnings not rolled over, including the 10% additional income tax on early distributions if you are under age 59½ (unless an exception applies).

If you do a direct rollover of only a portion of the amount paid from the Plan and a portion is paid to you at the same time, the portion directly rolled over consists first of earnings.

If you do not do a direct rollover and the payment is not a qualified distribution, the Plan is required to withhold 20% of the earnings for federal income taxes (up to the amount of cash and property received other than employer stock). This means that, in order to roll over the

entire payment in a 60-day rollover to a Roth IRA, you must use other funds to make up for the 20% withheld.

How much may I roll over?

If you wish to do a rollover, you may roll over all or part of the amount eligible for rollover. Any payment from the Plan is eligible for rollover, except:

- Certain payments spread over a period of at least 10 years or over your life or life expectancy (or the lives or joint life expectancy of you and your beneficiary);
- Required minimum distributions after age 70½ (or after death);
- Hardship distributions;
- ESOP dividends;
- Corrective distributions of contributions that exceed tax law limitations;
- Loans treated as deemed distributions (for example, loans in default due to missed payments before your employment ends);
- Cost of life insurance paid by the Plan;
- Payments of certain automatic enrollment contributions requested to be withdrawn within 90 days of the first contribution; and
- Amounts treated as distributed because of a prohibited allocation of S corporation stock under an ESOP (also, there will generally be adverse tax consequences if S corporation stock is held by an IRA).

The Plan administrator or the payor can tell you what portion of a payment is eligible for rollover.

If I don't do a rollover, will I have to pay the 10% additional income tax on early distributions?

If a payment is not a qualified distribution and you are under age 59½, you will have to pay the 10% additional income tax on early distributions with respect to the earnings allocated to the payment that you do not roll over (including amounts withheld for income tax), unless one of the exceptions listed below applies. This tax is in addition to the regular income tax on the earnings not rolled over.

The 10% additional income tax does not apply to the following payments from the Plan:

- Payments made after you separate from service if you will be at least age 55 in the year of the separation;
- Payments that start after you separate from service if paid at least annually in equal or close to equal amounts over your life or life expectancy (or the lives or joint life expectancy of you and your beneficiary);
- Payments from a governmental plan made after you separate from service if you are a qualified public safety employee and you will be at least age 50 in the year of the separation;
- Payments made due to disability;
- Payments after your death;
- Payments of ESOP dividends;
- Corrective distributions of contributions that exceed tax law limitations;
- Cost of life insurance paid by the Plan;
- Payments made directly to the government to satisfy a federal tax levy;
- Payments made under a qualified domestic relations order (QDRO);
- Payments up to the amount of your deductible medical expenses;
- Certain payments made while you are on active duty if you were a member of a reserve component called to duty after September 11, 2001 for more than 179 days;
- Payments of certain automatic enrollment contributions requested to be withdrawn within 90 days of the first contribution; and
- Payments for certain distributions relating to certain federally declared disasters.

If I do a rollover to a Roth IRA, will the 10% additional income tax apply to early distributions from the IRA?

If you receive a payment from a Roth IRA when you are under age 59½, you will have to pay the 10% additional income tax on early distributions on the earnings paid from the Roth IRA, unless an exception applies, or the payment is a qualified distribution. In general, the exceptions to the 10% additional income tax for early distributions from a Roth IRA listed above are the same as the exceptions for early distributions from a plan. However, there are a few differences for payments from a Roth IRA, including:

- The exception for payments made after you separate from service if you will be at least age 55 in the year of the separation (or age 50 for qualified public safety employees) does not apply.
- The exception for qualified domestic relations orders (QDROs) does not apply (although a special rule applies under which, as part of a divorce or separation agreement, a tax-free transfer may be made directly to a Roth IRA of a spouse or former spouse).
- The exception for payments made at least annually in equal or close to equal amounts over a specified period applies without regard to whether you have had a separation from service.
- There are additional exceptions for (1) payments for qualified higher education expenses, (2) payments up to \$10,000 used in a qualified first-time home purchase, and (3) payments for health insurance premiums after you have received unemployment compensation for 12 consecutive weeks (or would have been eligible to receive unemployment compensation but for self-employed status).

Will I owe State income taxes?

This notice does not describe any State or local income tax rules (including withholding rules).

SPECIAL RULES AND OPTIONS

If you miss the 60-day rollover deadline

Generally, the 60-day rollover deadline cannot be extended. However, the IRS has the limited authority to waive the deadline under certain extraordinary circumstances, such as when external events prevented you from completing the rollover by the 60-day rollover deadline. Under certain circumstances, you may claim eligibility for a waiver of the 60-day rollover deadline by making a written self-certification. Otherwise, to apply for a waiver from the IRS, you must file a private letter ruling request with the IRS. Private letter ruling requests require the payment of a nonrefundable user fee. For more information, see IRS Publication 590-A, *Contributions to Individual Retirement Arrangements (IRAs)*.

If your payment includes employer stock that you do not roll over

If you receive a payment that is not a qualified distribution and you do not roll it over, you can apply a special rule to payments of employer stock (or other employer securities) that are paid in a lump sum after separation from service (or after age 59½, disability, or the participant's death). Under the special rule, the net unrealized appreciation on the stock included in the earnings in the payment will not be taxed when distributed to you from the Plan and will be taxed at capital gain rates when you sell the stock. If you do a rollover to a Roth IRA for a nonqualified distribution that includes employer stock (for example, by selling the stock and rolling over the proceeds within 60 days of the distribution), you will not have any taxable income and the special rule relating to the distributed employer stock will not apply to any subsequent payments from the Roth IRA or employer plan. Net unrealized appreciation is generally the increase in the value of the employer stock after it was acquired by the Plan. The Plan Administrator can tell you the amount of any net unrealized appreciation.

If you receive a payment that is a qualified distribution that includes employer stock and you do not roll it over, your basis in the stock (used to determine gain or loss when you later sell the stock) will equal the fair market value of the stock at the time of the payment from the Plan.

If you have an outstanding loan that is being offset

If you have an outstanding loan from the Plan, your Plan benefit may be offset by the outstanding amount of the loan, typically when your employment ends. The offset amount is treated as a distribution to you at the time of the offset. Generally, you may roll over all or any portion of the offset amount. If the distribution attributable to the offset is not a qualified distribution and you do not roll over the offset amount, you will be taxed on any earnings included in the distribution (including the 10% additional income tax on early distributions, unless an exception

applies). You may roll over the earnings included in the loan offset to a Roth IRA or designated Roth account in an employer plan (if the terms of the employer plan permit the plan to receive plan loan offset rollovers). You may also roll over the full amount of the offset to a Roth IRA.

How long you have to complete the rollover depends on what kind of plan loan offset you have. If you have a qualified plan loan offset, you will have until your tax return due date (including extensions) for the tax year during which the offset occurs to complete your rollover. A qualified plan loan offset occurs when a plan loan in good standing is offset because your employer plan terminates, or because you sever from employment. If your plan loan offset occurs for any other reason, then you have 60 days from the date the offset occurs to complete your rollover.

If you receive a nonqualified distribution and you were born on or before January 1, 1936

If you were born on or before January 1, 1936, and receive a lump sum distribution that is not a qualified distribution and that you do not roll over, special rules for calculating the amount of the tax on the earnings in the payment might apply to you. For more information, see IRS Publication 575, *Pension and Annuity Income*.

If you receive a nonqualified distribution, are an eligible retired public safety officer, and your payment is used to pay for health coverage or qualified long-term care insurance

If the Plan is a governmental plan, you retired as a public safety officer, and your retirement was by reason of disability or was after normal retirement age, you can exclude from your taxable income nonqualified distributions paid directly as premiums to an accident or health plan (or a qualified long-term care insurance contract) that your employer maintains for you, your spouse, or your dependents, up to a maximum of \$3,000 annually. For this purpose, a public safety officer is a law enforcement officer, firefighter, chaplain, or member of a rescue squad or ambulance crew.

If you are not a Plan participant

Payments after death of the participant. If you receive a distribution after the participant's death that you do not roll over, the distribution will generally be taxed in the same manner described elsewhere in this notice. However, whether the payment is a qualified distribution generally depends on when the participant first made a contribution to the designated Roth account in the Plan. Also, the 10% additional income tax on early distributions and the special rules for public safety officers do not apply, and the special rule described under the section "If you receive a nonqualified distribution and you were born on or before January 1, 1936" applies only if the participant was born on or before January 1, 1936.

If you are a surviving spouse. If you receive a payment from the Plan as the surviving spouse of a deceased participant, you have the same rollover options that the participant would have had, as described elsewhere in this notice. In addition, if you choose to do a rollover to a Roth IRA, you may treat the Roth IRA as your own or as an inherited Roth IRA.

A Roth IRA you treat as your own is treated like any other Roth IRA of yours, so that you will not have to receive any required minimum distributions during your lifetime and earnings paid to you in a nonqualified distribution before you are age 59½ will be subject to the 10% additional income tax on early distributions (unless an exception applies).

If you treat the Roth IRA as an inherited Roth IRA, payments from the Roth IRA will not be subject to the 10% additional income tax on early distributions. An inherited Roth IRA is subject to required minimum distributions. If the participant had started taking required minimum distributions from the Plan, you will have to receive required minimum distributions from the inherited Roth IRA. If the participant had not started taking required minimum distributions, you will not have to start receiving required minimum distributions from the inherited Roth IRA until the year the participant would have been age 70½.

If you are a surviving beneficiary other than a spouse. If you receive a payment from the Plan because of the participant's death and you are a designated beneficiary other than a surviving spouse, the only rollover option you have is to do a direct rollover to an inherited Roth IRA. Payments from the inherited Roth IRA, even if

made in a nonqualified distribution, will not be subject to the 10% additional income tax on early distributions. You will have to receive required minimum distributions from the inherited Roth IRA.

Payments under a qualified domestic relations order. If you are the spouse or former spouse of the participant who receives a payment from the Plan under a qualified domestic relations order (QDRO), you generally have the same options and the same tax treatment that the participant would have (for example, you may roll over the payment as described in this notice).

If you are a nonresident alien

If you are a nonresident alien and you do not do a direct rollover to a U.S. IRA or U.S. employer plan, instead of withholding 20%, the Plan is generally required to withhold 30% of the payment for federal income taxes. If the amount withheld exceeds the amount of tax you owe (as may happen if you do a 60-day rollover), you may request an income tax refund by filing Form 1040NR and attaching your Form 1042-S. See Form W-8BEN for claiming that you are entitled to a reduced rate of withholding under an income tax treaty. For more information, see also IRS Publication 519, *U.S. Tax Guide for Aliens*, and IRS Publication 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*.

Other special rules

If a payment is one in a series of payments for less than 10 years, your choice whether to make a direct rollover will apply to all later payments in the series (unless you make a different choice for later payments).

If your payments for the year (only including payments from the designated Roth account in the Plan) are less than \$200, the Plan is not required to allow you to do a direct rollover and is not required to withhold federal income taxes. However, you can do a 60-day rollover.

Unless you elect otherwise, a mandatory cashout from the designated Roth account in the Plan of more than \$1,000 will be directly rolled over to a Roth IRA chosen by the Plan Administrator or the payor. A mandatory cashout is a payment from a plan to a participant made before age 62 (or normal retirement age, if later) and without consent, where the participant's benefit does not exceed \$5,000, or the amount of your plan's cashout threshold (not including any amounts held under the plan as a result of a prior rollover made to the plan).

You may have special rollover rights if you recently served in the U.S. Armed Forces. For more information on special rollover rights related to the U.S. Armed Forces, see IRS Publication 3, *Armed Forces' Tax Guide*. You also may have special rollover rights if you were affected by a federally declared disaster (or similar event), or if you received a distribution on account of a disaster. For more information on special rollover rights related to disaster relief, see the IRS website at www.irs.gov.

If you expatriate from the U.S., you may be subject to special rules, and should consult with your personal tax advisor to determine if you are required to provide Prudential with IRS Form W-8CE.
